

**TNT Filings Inc. and Automated Filings Services Inc.
Announce Strategic Alliance and Launch of XBRLit**

- *XBRLit to sponsor interactive discussion with industry experts -
- September 24, 2008 in Toronto -*

September 4, 2008 - *Toronto, ON and Vancouver, BC* - TNT Filings Inc. ("TNT") and Automated Filing Services Inc. ("AFS") two of North America's leading regulatory filing agencies are pleased to announce the launch of XBRLit: a service focused on helping reporting issuers meet upcoming XBRL reporting requirements.

XBRLit utilizes the combined resources of TNT in Toronto and AFS in Vancouver to create a full service XBRL solution. Backed by the experience of over 13,000 EDGAR filings and thousands of SEDAR filings, XBRLit is already the leading XBRL filing agency in Canada. To date, all XBRL submissions filed under the SEDAR voluntary program have been prepared and filed by XBRLit.

The goal of XBRLit is to help public companies understand, prepare, and file XBRL reports with EDGAR and SEDAR. To do this XBRLit offers the following primary services:

1. **XBRL Consulting:** XBRLit assists companies to identify internal resources and capabilities and tailor a service package to supplement those resources.
2. **XBRL Filings:** XBRLit assists companies to file official XBRL interactive data reports with EDGAR and/or SEDAR.

XBRLit is also a proud sponsor of the upcoming XBRL conference in Toronto on September 24, 2008 and encourages anyone interested in XBRL to attend. There is no charge to attend this event. Continental breakfast and a buffet lunch will be provided to attendees. For registration, please go to www.xbrl.ca/registrations.
